

CHANDAN KUMAR CHAUDHARY

+91 9508936040 | chandan880990ck@gmail.com | linkedin.com/in/chandan8899 | github.com/yash88990

Education

Vellore Institute of Technology (VIT)
Bachelor of Technology in Computer Science and Engineering (B.Tech)

2022 – 2026
CGPA: 7.94

Experience

PawsPalConnect — Flutter Developer Intern

- Developed and maintained cross-platform mobile applications using Flutter for Android and iOS platforms
- Designed reusable and responsive UI components following clean architecture and modular development practices
- Integrated RESTful APIs and Firebase services for authentication, authorization, and real-time data synchronization
- Collaborated with developers to implement features, fix bugs, optimize performance, and support testing & deployment

Projects

E-Health Solution Hub — Hospital Management System

MERN Stack (MongoDB, Express.js, React, Node.js)

Apr 2025 – Aug 2025

- Developed a full-stack hospital management system with **role-based JWT authentication** for patients and doctors
- Built RESTful APIs for appointment booking and patient record management
- Designed scalable MongoDB schemas and implemented secure backend services using Node.js and Express.js
- Applied modular backend architecture enabling efficient data handling and system scalability

Foodie — Online Food Ordering Platform

MERN Stack (MongoDB, Express.js, React, Node.js)

Jan 2025 – Mar 2025

- Built a full-stack food ordering platform with secure authentication and REST API architecture
- Implemented cart management, order processing, and CRUD operations using MongoDB
- Designed responsive React interface and optimized backend APIs for scalable order handling
- Implemented structured API design and modular backend architecture

[GitHub Link](#)

LogicNLearn — Learning Platform (Mobile App)

Flutter, Firebase

Aug 2024 – Dec 2024

- Developed a cross-platform learning application using Flutter with Firebase Authentication integration
- Implemented real-time announcements and push notifications using Firestore services
- Built reusable UI components improving application scalability and maintainability
- Managed deployment, performance optimization, and maintenance for an app serving **300+ active users**

Technical Skills

Programming Languages: C++, Java(Basic)

Mobile Development: Flutter, Firebase

Backend Development: Node.js, Express.js, RESTful API Development, JWT Authentication & Authorization

Databases: MongoDB, Firebase Firestore, SQL

Achievements

- Cleared HackWithInfy Round 1 and secured Digital Specialist Engineer (DSE) Pre-Placement Offer — *July 2025*
- Solved 950+ DSA problems across [LeetCode](#), [GeeksforGeeks](#), and [Coding Ninjas](#) with a 650+ day coding streak
- Founder & Tech Content Creator at [LogicnLearn](#), growing a YouTube channel to 1000+ subscribers

Co-Curricular Activities

- Created technical educational content focused on DSA, Flutter, and placement preparation
- Hosted a placement-focused podcast series interviewing students placed in top product and service-based companies, sharing interview preparation strategies and career insights
