PROJECTS

LogicnLearn – Learning App (Flutter, Firebase)

- Built a production-level mobile app with DSA topics, quizzes, and real-time announcements.
- Integrated Firebase Firestore + Google Sheets for real-time sync.
- Designed scalable UI with secure user authentication.

E-Health Solution Hub – Hospital Management System (MERN)

- Implemented role-based system with patient, doctor, and admin dashboards.
- Developed secure JWT authentication and appointment management APIs.
- Optimized MongoDB queries for fast response times.

Alzheimer Detection System (CNN + Python)

- Built MRI image classification model using CNN for early Alzheimer detection.
- Performed dataset preprocessing, augmentation, and hyperparameter tuning.
- Automated prediction pipeline using Python.

ACHIEVEMENTS

- DSA Mentor & Flutter Mentor guiding students in coding and development.
- Created a handpicked DSA sheet for interview preparation.
- Founded LogicnLearn YouTube channel (1000+ subscribers, daily live teaching).
- Completed 21-day live DSA bootcamp and maintained 500+ day coding streak.
- Solved ~1000 DSA problems on multiple coding platforms.
- HackWithInfy – Selected, Amazon Sambhav – Round 1 Qualified.
